Computer Science undergraduate at VIT Bhopal University with strong foundations in Data Structures & Algorithms, Web Development and Core CS subjects. Seeking Software Development roles.

Education

VIT Bhopal University <i>B.Tech Computer Science and Engineering (Core) CGPA: 7.86/10</i>	2023 – 2027
Saint Mary's School <i>Class XII (CBSE) 69%</i>	2022
Saint Mary's School <i>Class X (CBSE) 73%</i>	2020

Technical Skills

- **Programming Languages:** C, C++, Java, Python
- **Web Technologies:** HTML5, CSS3, JavaScript, Bootstrap
- **Core Computer Science:** DSA, OOP, DBMS, OS, CN
- **Tools & Platforms:** Git, GitHub, VS Code, MATLAB

Projects

Healthcare Prediction Web Application | HTML, CSS, JavaScript, Bootstrap

- Developed responsive frontend interfaces for Heart Disease, Diabetes, Lung Cancer and Breast Cancer prediction modules.
- Designed clean and user-friendly pages using Bootstrap and JavaScript.
- Collaborated with a team as part of the EPICS project.

AI-Based Smart Traffic Light Control System | Python, Artificial Intelligence, Computer Vision

- Designed an AI-powered traffic management system using Computer Vision techniques.
- Implemented dynamic traffic signal timing based on real-time vehicle density.
- Focused on improving traffic flow efficiency through intelligent signal control.

Spotify Web Player Clone | HTML, CSS

- Developed a responsive Spotify-inspired music player interface using HTML and CSS.
- Designed sidebar, playlists, navigation bar and player controls.
- Implemented responsive layouts using Flexbox.

Certifications

- Data Structures & Algorithms with C++
- Google IT Support Professional Certificate (Coursera)
- Marketing Analytics – NPTEL
- MATLAB Onramp

Achievements

- Solved 50+ Data Structures & Algorithms problems using C++.
- Participated in Open Source Contribution Month (AcWaC).
- Volunteered in NSS Mega Tree Plantation Drive.
- Built multiple academic and personal software development projects.
